## **DETAILED ACTION**

### ***Response to Amendment***

Claims 1-31 are pending in the present application.

### ***Response to Arguments***

Applicant's arguments filed August 17, 2001 have been fully considered but they are not persuasive. As addressed below, Becker et al. anticipated the amendment. Becker discloses the step of arranging the shape elements in an overlapping fashion to fill a predetermined region of the images such that the region has a substantially uniform opacity when he discloses "the uniform bins...[and] the splats overlap producing a smooth volume image in a splat plot" (**col. 2, lines 17-28; col. 3, lines 47-61; col. 4, lines 9-14; col. 8, lines 14-41; fig. 3 and 7**). Bins are made up of uniform clusters of data points. Also, the splats are made up of opaque data points that can form a shaded triangle or any other shapes. Furthermore, Becker teaches the bin positions define the order of bins along each discretized axis.

### ***Claim Rejections - 35 USC § 103***

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

1. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.
2. This maintains the rejection of the prior action which is hereby incorporated by reference.
3. Claims 1-31 are rejected under 35 U.S.C. 103(a) as being unpatentable over Becker (US patent no. 5,861,891).

### ***Conclusion***

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
